All benefits are subject to the terms, limitations and exclusions of the Policy, Summary of Member Responsibility Table, Certificate of Coverage, and any applicable Riders. Network Health Plan's coverage includes benefits for all state mandated benefits. Please refer to your Certificate of Coverage and any applicable Riders for detailed benefit information, eligible services and coverage guidelines.

Copayments for Non-Specialty injectable medications administered in a NHP participating practitioner's office are covered under the medical benefit and will follow the copays outlined above in Section a. Retail Pharmacy.

If the practitioner indicates "Dispense As Written", or if the member requests the brand name product for a medication where a generic is available, the member must pay the applicable copayment/coinsurance plus the ancillary charge. The ancillary charge is the cost difference between the brand name product and the generic product. When generic substitution conflicts with state regulations or restrictions the pharmacist must gain approval from the prescriber to use the generic equivalent.
